THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.
Prospectuses may be had on application, together with blank forms of proposals, and such other information as parties may desire.
The following are among the advantages offered by this Institution:—
The Guarantee of a large capital securely invested.
The peculiar Benefits secured by the principle of the Loan Department.
The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.
Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.
Part of the Capital is permanently and securely invested in the United States.
Wives can insure the lives of their husbands for their own and the benefit of their children.
The assent of the Society is not necessary to a transfer of the Policy.
For all practical purposes, this Agency is essentially an American Company, strengthened by a large available Capital safely invested in London; equally available to American as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any dispute should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.
Medical Examiners fees are paid by the Society.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE" throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the inquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, as secured by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some time [illegible] years since, and another one put up by Albert [illegible] at West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after 57 years experimenting upon these machines, not one is [illegible] of any value for the purpose contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

The Strange Schooner.

CONCLUDED.

Away walked our two portly friends up the garden towards the house, musing with very different feelings relative to the advent of the strange schooner. The Dutch skipper saw only a rival in love and trade in the English sailor; but Peter saw something far more serious, but what it was, unfortunately he could not communicate to any one. They heard Katherine roaring laughter at one [illegible] of the negro female servants, [illegible] she began [illegible] setting a whole system of her [illegible]. First a [illegible] then a table; then a [illegible] was at a position to satisfy herself with her own hands and [illegible] in process of [illegible].

As Peter entered the [illegible] stopped, [illegible] at him with an air of [illegible] doubt.

'Make haste, Dutchess,' said Katie [illegible] a laugh that still made [illegible] heart leap, and [illegible] to disturb his eye [illegible]

[illegible]

There [illegible] had change I [illegible] pared to [illegible] them. Both then [illegible] Dutchmen, one on [illegible] to admire and gaze at [illegible] desperate [illegible] forty, and [illegible] making himself into a [illegible] was sturdy a man as you [illegible] found by fat of his glass [illegible] Peter [illegible] another about [illegible] a little more [illegible] laughed heartily at his [illegible] was not adverse to [illegible] age, when he should be [illegible] a little merry. Peter [illegible] he could, but he had a dim [illegible] had really lost sixteen [illegible] know what he might have [illegible] to him; and [illegible] heart reproached him [illegible] of his evening after [illegible]

There [illegible] likely to disturb Peter [illegible] and fresh slices of hot cake [illegible] slowly, as if he never tired of [illegible] his beloved child, whose little hands, [illegible] his cake, seemed to make [illegible] pleasant. Andrew Brock tried to make [illegible] too fond of brandy and [illegible] It was in vain that [illegible] he could not [illegible] Kate, who was tired [illegible] retired to rest; and Andrew [illegible] followed her example. Peter [illegible] alone with his pipe and his [illegible]

[illegible] the Dutchman in his cloud of smoke, [illegible] bowl of huge dimensions, [illegible] with more gusto than usual. [illegible] The return of his daughter [illegible] the days of his courtship [illegible] was pleasant in his married life, all its [illegible] all the excellences and pleasant qualities of Mary Bischoff, while none of her faults were remembered, when he thought of the anniversary of the 1st of May [illegible] to him one always of painful [illegible] and as he smoked and drank, the good man drew away, half asleep, half awake, with all manner of queer beings around him. Presently some one seemed to call him, but so faintly he could scarcely hear, and he fell quite into a heavy slumber.

"Peter Bischoff, Peter Bischoff!" said a voice [illegible] in a [illegible] tone which made him start to his feet.

Peter [illegible] and looked wildly around, [illegible] one tapping at the window [illegible] All the servants [illegible] to bed, and Peter Bischoff was left alone.

'Who [illegible] there?' said he in a low tone.

'[illegible] half shrill, half gruff voice [illegible] the Dutchman.'

Peter Bischoff [illegible] but seeming to resign [illegible] fate, [illegible] unbarred the door, and gave admission to the stranger. A well made fellow, of about six-and-thirty, with light curly [illegible] pea jacket, and loose trowsers [illegible] pistols and dirk, walked [illegible] the smoking-room, sat him [illegible] the portly Dutchman's arm-chair, and [illegible] with his clear, piercing blue eyes with an air of considerable curiosity and surprise.

'[illegible] odd you look!' said the English sailor, [illegible] 'as if you expected me, yet did not [illegible]'

'[illegible] prepared to see you,' replied the Dutchman.

'How you've changed in sixteen years!' said the other, '[illegible] grey-haired, red nose—can't say you're improved.'

'[illegible] matter of taste,' said the Dutchman.

'Exactly. But to business. Do you recollect the 1st of May fifteen years since?'

'Yes, there must have been such a day,' observed the Dutchman.

'Glad you are willing to own that. But allow me to refresh your memory:—In the year 17—, sixteen years ago living in a small hut on Long Island, I discovered a treasure in my garden, buried there by pirates, I suppose.'——

'So you said at the time,' mused the Dutchman.

'And so I say now!' exclaimed the English sailor [illegible] 'I should have declared the discovery to the State, but I didn't. I thought a provision for my old age of more importance than the enriching a corporation; so I looked round for an honest rich, but hard man, who could make the [illegible] of my money until I wanted it, and [illegible] brought me to you.'

'Exactly,' groaned the Dutchman.

'I came [illegible] to you in my schooner, in which I traded down the coast, and told you that I had made the discovery. You never advised me to make it public, but offered me 5 per cent for my money as long as I liked. I preferred wandering just then to settling down, and I accepted: I handed you over the [illegible] the island, handed you the [illegible] and you gave me a receipt; here it is—I want my money. The 1st of May, 17—, is not yet come; [illegible] sixteen years when it was to be [illegible] if [illegible] not paid.'

'Exactly,' said the Dutchman.

'You are ready, I supposed?' exclaimed the English sailor: '£10,000 net at 5 per cent, for 14 clear years is £17,000.'

'[illegible]' said the Dutchman, with a deep sigh.

'I understand; it is not pleasant to give up so round a sum. Suppose we strike a bargain.'

'How?' cried Peter, rousing himself.

'What do you say to a swap, Mein Herr von Bischoff? Your daughter against the £17,000?'

'[illegible] first?' cried the Dutchman in a loud and [illegible] voice.

'What?' said the sailor much surprised, 'you prefer your daughter to your money?'

'[illegible] young man!' exclaimed Peter von Bischoff; 'and if you shall strip me of my fortune, [illegible] rob me of her.'

'I suppose I [illegible] chance you see having secreted treasure?' said the sailor gruffly.

"Der [illegible] and the teufel take you!" thundered the Dutchman.

"Pay me my money then," said the sailor; 'here is your receipt. Here's the sack in which I intend to carry away my gold."

The Dutchman looked fiercely at him but did not move. To part with £17,000 was dreadful, but to promise his daughter to a man he didn't know, was worse.

"Well," asked the sailor, "what is your decision?"

"Nothing!" said the Dutchman in angry embarrassment.

"My dear papa," exclaimed Kate, bursting into the room, "what is the matter? I hear you quarrelling with Captain Andrew, what has he been doing?"

"[illegible]," said Peter much annoyed, "my dear Kate! I am engaged in business with a stranger."——

"A stranger!" cried Katherine in wild and passionate [illegible] "do you say a stranger? Oh! my dear [illegible] who have you come in this disguise?"

"Your [illegible] What did you say?" said Peter, pale and trembling.

"Yes, dear father!" replied Katherine; "and after what you said to-day, you must indeed be proud and happy."

"Proud and happy!" said Mary Bischoff, sternly. "Then why have I been [illegible] to him for sixteen years? Why, when I fell overboard and was picked up and was coming home, did I hear him [illegible] it well for the best?"

"Because I was a fool; because I knew not the happiness [illegible] that day, because I loved my cash and [illegible], I seemed glad for a moment. But explain [illegible] I shall go mad! How are you here? Are you Mary, or are you the sailor? What is the object of your lending me money? But no; I am afraid to ask you. This is some trick. It would be too much happiness—too much!"——

"Do I hear aright?" cried Mary, looking at her husband and her child. "Is it possible that you really love me?"

"Mother," said Kate, solemnly, "if you had heard and seen him this morning you would not have doubted him;" and drawing the shawl aside on one side she spoke earnestly in a whisper.

In a minute more the sailor's whiskers fell off, his cap was removed, and but that the face was browned a little rougher, and the form a little rounder, Peter von Bischoff saw before him the same loved being who, sixteen years before, had disappeared beneath the waters of the Hudson. But Peter had no time to speak, for Kate drew her away. Overcome by his emotions, the merchant sank into his arm-chair.

"It's my wife or her ghost, as sure as I'm a Dutchman!" he cried.

In a few minutes Kate and Mary returned, the latter having hurriedly changed her garb, and Peter knew her once more. He took both their hands, unable to speak, and gazed at them with surprise and affection. His little eyes stood out prominently in his head, he looked first at one and then at the other, and then drawing his wife to his bosom, kissed her earnestly.

'Tell me all about it,' said he, rising with a tremendous effort, and offering her a chair. 'My dear love, welcome home!'

'To say, Peter, that I am surprised is to say little. I am very happy, very proud, even after so many years, to be united to my husband. When I fell overboard sixteen years ago I was swept away by the current instead of sinking, and was picked up by a fisherman who [illegible] you could not see in the dark. I lay all night in his hut, nursed by his wife and daughter. Towards the afternoon I was [illegible] was brought home in the [illegible] the house [illegible] the low [illegible] and I walked up here with the [illegible] intention of [illegible] with my ghost. Just [illegible] I heard you speak. Never [illegible] It seemed that my [illegible] that you [illegible] more fortunate than [illegible] you know I [illegible] the idea of being [illegible] to a man who rejoiced at my supposed death.

I would have taken my child; but I loved you well, and I wanted to see my child well brought up. You knew that my father had been a sailor, and even that it was rumored he had been hard upon the [illegible]. I had been often long voyages with him. I assumed the dress of a [illegible] the [illegible] discovery, and the surest way of getting on. I shipped on board a trading [illegible] which went to Long Island, where my father [illegible]. I sought his house, now mine, and [illegible] my headquarters. Arranging the house [illegible] I found a letter to myself hidden in an old box. It was put there in the provision that his daughter might marry and not be happy. It told me of the hidden treasure. I saw in this another [illegible] I would [illegible] a future fortune for my child. I knew you to be a man capable of doubling it.—You know the rest. But I could not bear to see my Katherine. I went to the school—the mistress knew me well—I told my story, and she agreed to let me see my child as often as I liked. My child loved me dearly. Every voyage—and they were only short, [illegible] made [illegible] and spent some hours with Kate. When she was old enough to understand, I explained the reason of my parting with you, but, as you well know, without seeking to diminish the child's affection for its father.'

'God bless you!' said the Dutchman.

'And so you mean to take back your runaway wife?' replied Mary, sidling up to him.

'*Mein gott!* you don't want to go?' exclaimed Peter anxiously.

'But I'm as merry and as wild as ever. Kate and I romp together like two kittens.'

'So much the better,' said the Dutchman, whose eyes looked very moist. 'The house is yours: do as you like; only forgive me my word—I did not mean them—and you may dance on my head if you like.'

'I do forgive you, Peter. I would do so simply to quiet those imploring little eyes of Kate's,' replied Mary; 'but I do so from my heart—on one condition.'

'Anything you like,' said Peter, with enthusiasm.

'The fact is, when I came here it was not with any intention of making myself known. I had heard it rumored that you intended to marry Kate to old Andrew Brock; at all events he said so'——

'Old porpoise,' growled Peter indignantly.

'I am glad to hear you had no such intention.'

'See him drowned first!' said Mein Herr von Bischoff.

"For I, my dear husband, have one ready for Kate. He is a young Englishman; a clever, handsome, lively, fellow. You like ease; he likes work. Make him manager of your estates; you have plenty of money; you can enlarge and improve them"——

"But it is your money"——

"No, Peter; it is yours in trust for Kate. She will be happy to share our home. By and by we can build her a house on the [illegible], and then [illegible] years hence when we really do the"——

"Hush, mother!" cried Kate eagerly. "Tell of anything else."

We'll talk of your marriage then"——

"Yes!" exclaimed Peter, who was in a rapturous state of mind. "And won't we dance, and have a fine time of it!" and the Dutchman actually rose, seized his wife and daughter by the hand, and, amid shouts of laughter, began dancing round the room. They both tried to stop him, but in vain; he was too much for them. At length, however, he was out of breath, and sank into an arm-chair.

'Let's have some supper,' said he suddenly, 'and drink to the health of the mistress of the house. Holla! ho! [illegible] Gratz, Joseph, William, Ebony, Alice. Be stirring; look alive!' and seizing his walking-stick, the Dutchman began banging the table with a settled energy which made his wife smile. It was a strong proof of his love; for he hereby declared that he abandoned willingly all his ideas of phlegmatic comfort, and authorized those he loved to be henceforth as uproariously mirthful as they pleased.

'Your father is going mad!' said Mary laughing.

'With happiness, ma[illegible]' replied Kate, joining their hands, an[illegible] them with such an exquisite smile of [illegible] both embrace her fondly.

A happy man from that day was Mein Herr von Bischoff. He never looked grave again, for fear of making his family fancy he was tired of their mirth. When he unexpectedly found his house filled during the next ten years by little children—both his daughter's and his own—he certainly did look at them with somewhat of a serious expression of countenance; but when he caught his wife or daughter's eye fixed on him, he would laugh heartily, and winking at both, exclaim with genuine delight: 'It's all for the best!'

American Prisoners in Mexico.—We yesterday copied an article from Houston Telegraph, to the effect that the editor had learned from a person, who was in Durango some months since, that nine American citizens had been imprisoned in that city more than a year, and unless the United States Government interfered, they would probably remain in durance many more years.

A letter has been shown us, which induces us to believe that one of the prisoners is no other than the notorious Captain Parker H. French, and that the rest are his accomplices in all sorts of rascalities. This fellow French has been hung within the past year, and has been elected Governor of Durango, and we hardly know what not.

The following extract from the letter referred to, and which was written some two or three months since by a gentleman residing at the city of Durango to his brother here, will set the matter at rest.

The notorious Capt. French has not been executed, but is in prison in this city, with eleven of his companions, charged with highway robbery. From all the information I can obtain, French is quite a desperate character.

All the interference our Government could make in the matter, would be simply to ask that this man French might be given up by Mexico to be punished for his swindling transactions on this side of the Rio Grande.—*N. O. Pic. Nov. 130*

U. S. District Court—Syracuse Case.—The Grand Jury, who appeared to be a highly respectable body of men, and who we are informed have been diligently and laboriously engaged since the commencement of the term until to-day, in the investigation of the Syracuse rescue, have found indictments against twenty-five persons for participation in that lawless outrage.

Such of the parties as had been previously arrested and bound over to appear at this Court gave bail to appear at the January term of the Court, to be held at Albany, and where it is understood the indictments, or some of them will be tried.—*Buf. Com. Adv.*

More Arrests.—We learn from the Syracuse *Journal* that Messrs. W. L. Crandall, L. H. Salsbury, J. B. Brigham, and Montgomery Merrick were arrested on Saturday last, by U. S. Marshal Bash, in pursuance of indictments found by the Grand Jury of the U. S. District Court, during its late session in this city, for violating the fugitive slave law at Syracuse on the 7th ult. They gave bail in the sum of $2000 each to appear at the next term of the U. S. District Court, at Albany, in Jan. The expenses of the prisoners which will be incurred during the trials, will amount in the aggregate to enough to have liberated a small army of slaves.—*Ib.*

The Utica Incendiaries.—Confession of Conklin.—Utica, Nov. 29.—The confession which Conklin has made, is quite lengthy. It implicates several individuals hitherto unsuspected.

Orcutt also has corrected his former confession in some important particulars. Both agree on all main facts.

Conklin's confession will be published soon, probably without the names.

New York, Nov. 29.—The report that the Hon. Mr. Walker had negotiated the Illinois Central Railroad loan, has no foundation in fact.

☞ The oldest man probably, who voted at the recent election, was Phillip Princely, an Englishman, of Northampton, who is 105 years old. He voted the Whig ticket. Samuel Follett, one of the few remaining survivors of the battle of Bunker Hill, a resident of Worthington, was also one of the good men and true who deposited the straight Whig ticket in the ballot box on the 10th. He is 94 years old, and drove from his home to the place of voting in his cart, with an ox team.—Springfield Repub.

The Result in New York.—The whigs should have carried New York. No party ever had a better chance to make an overwhelming demonstration. But the single remark of the Albany *Evening Journal* is too truly indicative of the cause,—the *sole* cause,—to be lost sight of, however painful it may be to a Whig to confess it. "The President did not call off his dogs soon enough." Truth, bitter truth, every word of it!—*Beloit Journal.*

CONSTRUCTIVE MILEAGE.

The publication, in the Whig papers, of the lists of Senators who received, or who refused to receive, Mileage for journeys *never performed*, is received with exceeding displeasure by our brother of the Loco Foco press. Not content with suppressing, so far as they can this unpalatable information, they resort to various shifts to throw doubt upon the motives of those who made the facts public, or to relieve their favorites from the heavy responsibility which attaches to them for helping to "rob the exchequer." As a sample of the slim apologies put forth in behalf of the delinquent Senators, we take the following from the last Madison *Argus*:

> The Whig papers are parading lists of the U. S. Senators who received, and who refused to receive, constructive mileage. Whatever may be thought of the propriety of taking such mileage, there is no question as to its legality, as the Whig Attorney General, Johnson, has decided, in an official opinion upon the point. The fault is in the law, if any where, and Senators have simply received the fees it allowed; and Whig papers would display more honesty of purpose in attacking the law itself, than by assailing public officers. Believing the law wrong, we trust it will be duly amended.

The fault is not in the law, but in the construction which honorable (?) Senators have seen fit to give it, in order to pluck the public goose of a few additional thousands. Neither can the responsibility for the wrong be transferred, from the offending Senators, to the shoulders of a "Whig Attorney General." Nor yet could that opinion open the doors of the Treasury to the Senatorial plunderers. The *certificate* of the President of the Senate, William R. King, was the *open sesame* by which Senators made their way into the public chest, and once there, they helped themselves according to *their own conscience*, and not that of the Attorney General. Of 49 Senators, *twenty-five* joined in the foray upon the Treasury, while *twenty-four* refused to soil their hands with the filthy lucre. *Three* only of the plunderers are Whigs, while twenty-one claim to be "democrats," exclusive friends of the people! lovers of *economy*! advocates of *strict* construction! jealous guardians of the popular rights and the public *treasure*! and *four* of these twenty-one are prominent "Democratic" candidates for the next Presidency! "See what a rent" each of them made in Uncle Sam's strong box.

Samuel Houston, of Texas, carried off $2496
Stephen A. Douglas, of Illinois, " 1984
Henry Dodge, of Wisconsin, " 1584
Isaac P. Walker, of Wisconsin, " 1584

And the hair of all these gentlemen stood on end, when the same "Whig Attorney General," whose opinion is pleaded in excuse for "the deep damnation of *their* taking off" the public money, gave a like official decision in behalf of the horse-leech, Galphin!

Our Increased Vote.—We gave in our last the vote of this State at the recent election compared with the vote at the Presidential contest of 1849. We repeat to-day the aggregates on Governor compared with those given at the last preceding Gubernatorial election in 1849.

Dewey, (L. F.) 16,649	Upham, (L. F.) 21,731

Chase, (F. S.) 3,761	
Total vote 31,727	Total vote 44,032

Increase of vote from 1849 to 1851, 12,305!

Janesville and Beloit.—The following article from the Beloit Journal will explain itself:

> *Great relative Increase of Beloit over Janesville.*—The equalized Assessment of the two towns last year was as follows:
>
> Beloit, $262,126; Janesville, $345,000. The *Gazette* received these amounts, as indicating the comparative importance of the two towns, and requested the Milwaukee *Sentinel* to publish the fact—which it did. The equalized Assessment of this year shows the following result:
>
> Beloit, $255,918; Janesville, $265,918—*showing the great relative increase of Beloit over Janesville of $69,874 in a single year!* In the Assessment Rolls as handed to the Supervisors, there was a still greater difference, Beloit being assessed at $332,718; Janesville at $219,118. Milwaukee *Sentinel* please copy.

Neighbor of the *Journal*! The *Sentinel* has copied. And furthermore, signed by the Clerk of the Board of Supervisors of Rock Co., we find the Assessment Returns of the County in the Janesville *Standard*. Among other figures, we find the following:

Beloit; Number of acres, 41,303; assessed value of real estate, $303,718; ditto personal, 30,150; aggregate assessment, $333,168; equalized value of real estate, $255,918; total value of real and personal estate equalized, $286,368.

Janesville; Number of acres, 20,729; assessed value of real estate, $219,118; ditto personal, $22,650; aggregate assessment $241,768; equalized value of real estate, $265,918; total value real and personal estate equalized, $288,568.

Storm and Freshet in New York.—The *Tribune* of the 22d gives accounts of damage done by the storm and high tide of the day previous.—The water rose to such a height as to flood the wharves, and many of the streets in the 1st, 2nd, and 4th Wards were flooded, the water standing 2 feet deep in South st., at Catharine Ferry, and rendering skiffs necessary to land the passengers. Fulton Market, on the East river side, was flowed to the depth of 18 inches, and many of the cellars in Broad, Beaver, Stone, and South William Street were filled. On the North River side, at Albany Street, the water made its way as far back as Greenwich Street. The steamship *Eldorado*, lying at the foot of 10th Street East river, being moored so that she could not rise with the tide, filled and sunk to her upper deck; she was almost ready for sea.

Very little damage was done to the shipping.

The New York Exhibition.—It looks very much as if those who have taken this affair in hand are in sober earnest, and mean to push the project forward to a successful termination, if possible. It is said that a first class packet ship has been chartered to bring over the articles from London, free of cost to the exhibitors, and that the vessel was to sail on the 15th inst. Mr. Riddle, the Ex-U. S. Commissioner, is in London, urging forward the preparations.

We do not believe the thing will succeed according to the expectations of the projectors; as, so soon after the Crystal Palace exhibition, it can but be a second edition of that affair.

Harlem Railroad Extension.—A company by the name of the "Lebanon Springs Railroad" Co. has been organized to construct a road from Chatham to Hoosic River, north, which will unite the Harlem Railroad with the Western Vermont Railroad, thus constituting a great interior line of railroads from New York to Montreal.

Railroad Connections.—The Cleveland *Herald* learns that the road connecting Erie with Dunkirk will be running by the 15th of December. The road from Cleveland eastward will be finished to Madison by January 15th, leaving but 40 miles staging between Cleveland and Dunkirk.

Louisiana.—The whigs having carried a majority of both houses of the Louisiana Legislature, will be able to elect a U. S. Senator to succeed Mr. Downs, whose term of service ends in 1853. The Congressional delegation is devided, two whigs and two Locos, a whig gain of one.

The Speakership.—The Madison *Express* names Col. Bothin, one of the Members elect from Dane County, as a suitable candidate for Speaker of the next Assembly.

The War in the North.—The first number of the new volume of the Oshkosh *Telegraph*, which came to hand by Saturday's mail, is brimful of fight. It declares war, specially, against the Board of Public Works and their Officers, and promises to continue, as heretofore, "to probe the rottenness of the Fox River Improvement, until everything is laid open before the people." We desire to call the attention of the Green Bay *Advocate* to this threat, as emanating not from the wicked Whigs, but from a paper of its own cloth and kidney.

We judge from the following paragraph in the same paper that it is high time the belligerent parties mentioned were bound over to keep the peace:

> Personal.—Serious personal differences have existed between the editor of this paper and Dr. B. S. Henning, for a considerable time past, and of which we have not yet said one word in our paper. They have now assumed such a shape that we feel justified in explaining our position to the public; and in order that we may not appear as acting unjustly towards him, we now publicly tender an opportunity for adjusting those difficulties, having done so privately, repeatedly. Should this fail of the desired effect, we shall feel at perfect liberty to give such explanations as may show how far we are in the right or wrong, for we can not, nor will not be eternally abused with impunity. It is enough to be reduced to absolute want and poverty, without being dogged beyond human endurance. This much we say; we will have satisfaction, however it is purchased.

Another "Call" on the Commercial.—The Mineral Point *Tribune* thus pointedly challenges the *Commercial* of this city, to produce its alleged "proofs" in relation to the spurious Upham letters:

> "We have the names of these leading Whigs in Mineral Point who circulated the forged letters."—*Mil. Com. Adv.*

Out with them, neighbor, out with them, and let us know who they were. This great ado of the Commercial about forged letters, sent to Mineral Point, leaves Shakspere's "Tempest in a Teapot," far in the shade. The whole story may be told in a few words. A day or two before the election, two copies of an article headed "Discovered Correspondence," purporting to be a letter upon the Bank question from Mr. Upham, were received in this town; and as they bore such evidences of fraud, upon their face, it was thought by all that they were gotten up by the Don's friends for the purpose of raising the cry of fraud against the Whigs, and so far as could be done by the "leading Whigs of Mineral Point," they were suppressed immediately. None of them were circulated, and only used to create a little sport by both parties. Although Mr. Strong says "they lost many votes" to the Don, we venture to say that not a vote was changed by them, while on the contrary, we believe that Moses' over exertion to help the Don out of a tight place, caused many to vote for Mr. Farwell.

Thurlow Weed Esq.—The Telegraph announces that Mr. Weed sailed for Liverpool yesterday in the Steamer Baltic. *It will be recollected* that Mr. W. spent the summer of 1844, during the Clay presidential canvass, in Europe.—*Rochester American, Nov. 26th.*

Supposing that the Rochester *American* had no sinister motive for publishing the above, it will be gratified to learn that its "recollection" is at fault. Mr. Weed was at home and not abroad, during the Clay Presidential canvass. It was in the previous year, 1843, that he visited Europe.

Tennessee.—The correct vote for U. S. Senator in the Tennessee Legislature was as follows:

	Senate.	*House.*	*Total*
J. C. Jones, Whig,	16	39	55
W. Trousdale, Opp.	8	30	38
Scattering, (do)	—	—	6

So Ex-Gov. Jones was elected over Ex-Gov. Trousdale, having all the Whig votes.

Kentucky.—The two first ballots for U. S. Senator by the Kentucky Legislature resulted as follows:

	1st. ballot,	*2d*
Archibald Dixon, Whig	41	3
George Robertson, do	29	2
Humphrey Marshall, do	8	1
John J. Crittenden, do	1	
William O. Butler, Opp	60	6

Election in St. Croix Co.

We received by Friday night's mail, the St. Croix *Inquirer* of Nov. 11th. It contains nothing relative to the election except the following paragraph:

> As far as we have heard, the Democrats have carried the county by a small majority, with the exception of Lieut. Governor. Hughes beats Barns. What says the correspondent of the Sheboygan Lake Journal *now?*

Fire Annihilator.—The New York *Herald* understands that the chemical composition required to charge the fire annihilator cannot be made in New York; that all experiments to that end have failed; and that before a public exhibition of the annihilating capacities of the machine can be expected, some of the vessels, already loaded, will have to be procured from England.

The whole affair, thus far in this country has served almost to "annihilate" public confidence in the machines, but the evidences of success across the water are still too great to overthrow it completely.

Beloit Mutual Insurance Company.—A company under this name has recently been organized at Beloit, with the following officers:

John Hackett, Esq., Pres't.
A. L. Field, Esq., Sec'y.
Jesse McQuigg, Gen'l. Ag't.

Directors: W. T. Goodhue, John M. Keep, Allen Warden, John L. V. Thomas, L. G. Fisher, Samuel Hinman, J. R. Briggs, Jr., T. C. A. Manchester, and Thomas Buttle.

Fires in Utica.—The Utica *Gazette* gives a list of forty two fires, occurring between Oct. 30, 1849 and April, 1851, with a loss of more than $100,000, and adds that it is ascertained by the confession of Conklin, that twenty-seven at least of these fires were caused by incendiaries.

Marshal Tukey in Custody.—We learn from the Boston *Mail*, that Marshal Tukey, the noted Chief of the Boston Police, was married last week to a Mrs. Haydock, a widow lady whose husband died recently in California, leaving her $100,000.

☞ The Baltimoreans have determined to give Kossuth a grand reception in their city, and have deputed a Committee of six leading citizens to go to New York and extend the invitation to him.

Quickest Yet.—The *Mayflower* arrived at Buffalo last Tuesday morning in 10 hours 5 minutes from Cleveland, this being the shortest trip ever made between those ports.

☞ A new counterfeit ten dollar gold piece has made its appearance in Cincinnati. It is well executed and calculated to deceive.

City Matters.

Young Men's Association.

The debate takes place *this* evening in the basement of the new Congregational Church, at 7½ o'clock *precisely.*

Subject—The Higher Law Doctrine.

Debaters.—Messrs. Jno. P. McGregor and A. McArthur.

The debate is open to the public.

The annual meeting of the Association will be held at their rooms *to-morrow* evening, and the annual election of officers on Wednesday. All members of the Association are requested to attend.

☞ The establishment of Messrs. Mohr and Alfter, No. 15 Wisconsin Street, invites custom by the excellence of the stock, not less than the civility of the proprietors. Mr. Mohr has just returned from New York with an abundant supply of the best Tobacco and Segars and the purest Wines and Liquors to be found in our city. Their advertisement briefly sets forth some of the inducements which they offer to purchasers, but their stock, to be appreciated, must be seen. Give them a call.

Dr. Kinkel.—We learn that this eminent German Scholar and Patriot arrived in our City, Saturday evening, by the Mail boat from New Buffalo. It is the intention of his countrymen and others of our citizens to honor him with a public reception, tho' we are not yet apprized of the time or the particulars, of the proposed ovation.

Reform Needed.—Such of our city fathers as have charge of that portion of the streets leading southward from the Menomonee bridge, are invited to walk down that way and "survey the landscape o'er." They will find it anything but agreeably diversified with hill and dale, but needing the hand of the diligent man to mend its ways.

Street Improvements.—Inspector Dunlap has "hurried up" matters in fine style during the past week, and the work of grading Wisconsin, Maine, Milwaukee and other streets, and re-laying the side-walks, has made rapid and visible progress. A week or two more of fine weather, and a good part of the work in the First Ward will be done and *well* done.

☞ Hon. Eleazar Root, Superintendent of Public Instruction and member elect of the next Legislature, arrived in our City on Saturday. He will probably visit our City Schools officially during his sojourn here.

☞ We had neither mail nor Telegraph from the East Saturday night, up to the hour of our going to press. Our supply of news is somewhat scant, this morning, in consequence.

☞ See the card of O. L. Stewart, Esq., of New York, late of this city, and favorably known to many of our business men.

Florence Saloon.—Stafford, at his new saloon, opposite the U. S. Hotel, offers temptations to the hungry which they will find it difficult to resist.

Malaga Grapes.—The attention of the lovers of this delicious fruit is invited to Wall's advertisement of this morning.

☞ Thurlow Weed, the able editor of the Albany *Evening Journal*, sailed for Europe in the steamer *Baltic* on Saturday week, in company with his eldest daughter, and several friends. He will probably be absent from six to eight months. Mr. Weed's letters from the old World, during his first visit in 1843, were re-published in most of the leading journals of the Union and read with avidity and admiration by men of all parties and pursuits. The public will look with eager interest for the letters which may be expected from him during his present tour.

The New York *Times*, in noticing Mr. Weed's departure, speaks warmly and eloquently of his many excellent and ennobling qualities. We copy what the *Times* says with the remark, that tho' it may appear to some to be the too partial estimate of an attached friend, none who know the original will fail to recognize the life-like fidelity of the portrait:

> Thurlow Weed, with part of his family, is among the passengers by the *Baltic* to-day. He intends to spend six or eight months in England and on the Continent. A truer American, a more generous man, never left the New World for the shores of the Old. He will find true friends there as he leaves true friends here. When the virulence of party animosities, and the bitterness of personal griefs; shall have died away, men will confess that few nobler hearts have ever lived.—The thousands he has helped, the poor he has aided, the hungry he has fed, the weak he has strengthened, the men in every walk whom his hand, his influence, and his purse, have been ever ready to assist, will cherish the remembrance of his worth.
>
> The public at large may think our words extravagant; those who know him, will understand how feebly they indicate the excellencies of character. God grant him a pleasant voyage and a safe return!

Belcher's Sugar Refinery—Artesian Well.—The St. Louis *Intelligencer* contains the following notice of this extensive concern, with which Messrs. Goodrich & Hunter of this city are connected. The mammoth store and stock of the latter gentlemen is well known to all who deal in the sweet things of life:

> *Belcher's Sugar Refinery.*—This is certainly one of the heaviest manufacturing establishments in this city, or in the entire West. Extensive additions to the main building are now going up, and a large block of brick warehouses, to be used for storing, have been commenced. The cooper's shop attached to the premises, is a curiosity in itself, and one of the most extensive and substantial concerns of the kind we ever saw. Some idea may be formed of the immense business of the whole concern from the fact that the pay roll of the cooper shop for workman alone, amounts to $2,500 a month, or in the neighborhood of $30,000 per annum. We have been promised the statistics of the establishment, and hope to present them along with others of importance from time to time during the winter.

The same paper publishes another article, which we give below, relating to a well which the above firm has been a long time engaged in sinking:

> *Artesian Well at Belcher's Sugar Refinery.*—The proprietors of this immense establishment—said to be the largest of the kind in the Union—are engaged in boring an Artesian well on their premises; the object sought to be attained, a constant supply of pure water for their works.
>
> The well was commenced in the winter of 1850, and at the depth of 430 feet a partial supply was obtained and made use of during last summer. This fall the boring was recommenced and is still progressing through a solid formation of carboniferous lime stone rock at the rate of from five to ten feet in every twenty-four hours. The character of the different formations have been carefully noted and the borings submitted from time to time to eminent chemists. They have varied but little. Carboniferous lime stone rock made its appearance a few feet below the surface and continued to the depth of 380 feet. Here a stratum of blue clay was discovered, 15 feet in depth, after going through which the limestone again made its appearance and has continued with slight variations, either in the character of the borings or properties of the water, up to the present time. The well is now 615 feet deep, the diameter of the bore being nine inches. The machine for boring is worked by an engine night and day, and it is proposed to go to the depth of from 1200 to 1500 feet by spring, provided the desired object is not attained before that time.
>
> The borings for some days past have partaken more of the character of sand stone, and have the appearance of sand stone dust, but when submitted to a chemical analysis the presence of the lime is instantly detected. The character of the water is evidently lime stone, and it now rises to within twenty feet of the surface. The presence of salt, it is thought, can be detected by the taste, but this has not been clearly demonstrated, and if it existed to any great extent would render the water hopelessly useless for the purpose it is designed. The kind of water desired is clear and pure, free from offensive properties, and such it is thought by eminent Geologists, from the face of the country north and west of us, can be obtained at the distance Mr. Belcher proposes to go. This is the first Artesian attempt in this section of country, and aside from the pecuniary interest of the proprietor, the community doubtless feel an interest in knowing to what extent this lime stone formation exists, and the character and thickness of the different strata, to the depth of 1200 or 1500 feet below the surface, which will be noticed as the well progresses, and given to the public when completed.

Horrible Catastrophe.—We are informed on the authority of a gentleman in the town of Somers, that a child about 4 years old, of Hugh Mullarkey, was burned to death by his clothes taking fire from the stove. His mother was absent at the time at a neighbors, and when she returned she found the remains of the child lying in the doorway, and partly eaten up by the dogs.—*Kenosha Telegraph.*

More Influences.—A correspondent of the Janesville *Standard*, in giving his idea of the causes of the recent defeat of the Locos in this state, urges the following, among reasons:

> The presumptuous and unprincipled few into whose hands the reins of the party have unfortunately fallen, instead of trying as democrats of other states have done, to heal all discord, and unite for the sake of victory and principle, do not even treat us with ordinary courtesy, but seem, like the devil himself, ever intent upon mischief. Instead of building up, in imitation of the wiser democrats of the eastern states, these miscreants have been pulling down, until they have placed us in a position that bids fair to make us the derision and scorn of our enemies. They are not even true to some of their own section who have stood faithfully by them, but have stricken them down, when they happened to stand in their way to preferment, with as little hesitation or ceremony as they would kick a reptile out of their path.

☞ The Kenosha *Telegraph* says the Hon. Charles Durkee left on Monday last for his duties at Washington.

Accident to the Wolcott.—The steamer J. Wolcott, while turning in the river on Monday, running on a snag, broke her bottom through, and sunk in about six feet of water. We learn that she will lay up for the season, and during the winter undergo thorough repairs.—[Saginaw Times.

JOHN DWIGHT & CO'S SODA SALÆRATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co's

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works, leaving the iron perfectly dry, and not liable to rust.

THE TAIL OF THE COMET

IS forty degrees in length, but as this is the distance that stars are visible through it. The marvellous tales of some nostrum-mongers are nearly as long, and quite as easily seen through.

The proprietor of Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, however, has no occasion to resort to such tales in order to attract public attention.

The actual cures performed by this article wherever it is introduced, is the basis upon which the reputation of this remedy is founded, as the hundreds of certificates of renewed hopes, health, and life, that are continually flowing in upon him, will prove.

☞ Humbugs may flourish for a time but a remedy must possess real medicinal virtue, to establish the reputation that Dr. Guysott's Yellow Dock and Sarsaparilla has established wherever it has been used.

GREAT DISCOVERY.

JOHNSON'S CHEMICAL

HAIR INVIGORATOR.

To Prevent Baldness, [illegible] the Hair that has fallen off or become [illegible] to cure effectually SCURF AND DANDRUFF.

Prepared only by S. JOHNSON, 151 E. Water-st.

FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 21 2m

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

Double Oven Cooking Stove,

(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us in the event of any of the plates getting broken, can at all times be supplied with extra ones, thus superseding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

"We have used Crane's Patent Soap in our families for the past eight months, and pronounce it fully equal to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

TAKE NOTICE!
PATENT
BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," and in presenting [illegible] they believe a decided superiority over every other kind now in use.
The advantages of this Patent are, first, the elasticity of [illegible] the simplicity and durability of its structure, and which is of far greater importance, these Bedsteads are BUG PROOF. For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used.
In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!
and when we say that one firm in New York (Troy) manufactured and shipped over (under this Patent) TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities,
ONE HUNDRED THOUSAND
have been made and are now used, we state nothing but the truth, and exemplify the advantages, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Massillon, O.; Neil House, American House, Capitol House, U. S. Hotel, Buckeye Hotel, Columbus, O.
This patent received the
HIGHEST PREMIUM,
at the late Fair of Rensselaer county, N. Y., New York, Albany [illegible], Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O., Stark county, O., and numerous others.
MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring-st., 4 doors east of the American House, Milwaukee, where applications for Right of Towns or Counties will be promptly attended to.
Persons who have [illegible] Bedsteads remodeled on the above plan, will please leave their orders with Mr. Birchard, at the above named place, where they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1.25.
In conclusion, we are free to state to a discerning public that after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a common-sense public.
MILLARD, HOLTON & CO.
P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior to any thing of the kind that we have heretofore known, either in this or any other State. Its superiority consists in [illegible] the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."
We feel, too, that for cheapness, it does not cost any more than the common wood screw, the expense of the cord and sacking bottom being saved, and the practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

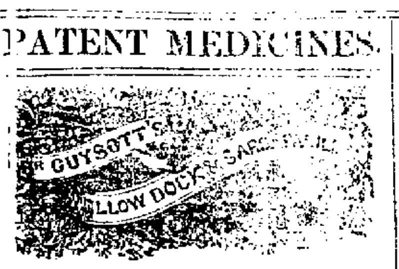
PATENT MEDICINES.



Dr. Guysott's Improved Extract
OF
Yellow Dock and Sarsaparilla,

IS NOW PUT UP in the largest sized bottles, and is acknowledged to be the BEST [illegible] made, as is certified by the Wonderful Cures performed, the original copies of which are in the possession of the proprietor. Remember, this is the only TRUE and ORIGINAL article.
This Medicine, when used according to directions,

Will Cure Without Fail,
Scrofula, or King's Evil, Cancers, Tumors, Eruptions of the Skin, Erysipelas, Chronic Sore Eyes, Ringworm, or Tetters, Scald Head, Rheumatism, Pains in the Bones or Joints, old sores and Ulcers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Rheum, Disease of the Kidneys, Loss of Appetite, Diseases arising from the use of Mercury, Pains in the Sides and Shoulders, General Debility, Dropsy, Lumbago, Jaundice, and Costiveness.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."
Ladies of pale complexion and consumptive habits and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.
☞ Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

Newark, N. J., Jan. 25.
Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause.
J. B. Tripp & Co.

Hinmansville, Oswego Co., May, 1848.
S. F. Bennett—Dear sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.
Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.
The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

Norway, Herkimer Co., Feb. 1850.
S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment he soon commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year 1849, and by it [illegible] he was perfectly restored. [illegible] the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.
Respectfully, JAMES RUSSELL.

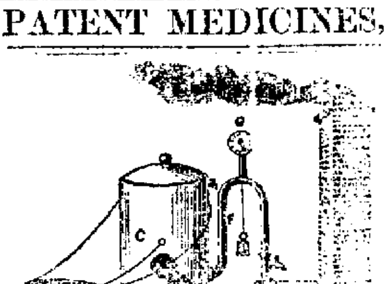
PATENT MEDICINES,



Dr. Trasks Magnetic Ointment.

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or Villages of the West. The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians, of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. That it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism Burns, Freezes, Ulcerated sores, Scald head, or fever [illegible] from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rapid progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.
Twenty-six years since, Dr. Bull then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined (seventeen years since) to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.
Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidently appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked,—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceeded his, have been cast aside as unworthy of the slightest notice?" Tho' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.
Dr. Bull, would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.
Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of any medicine?

Louisville, May 29, 1849.
We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.
(Signed) E. W. SEHON,
E. STEVENSON.

Testimony like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.
From Doctor L. P. Yandell, Professor of Chemistry in the Louisville, Medical College.
I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.

Louisville, June 6, 1849.

Better Testimony than was ever offered in favor of any Medicine.
From Dr. James M. Moore.
Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.
Louisville, Dec. 20, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.
Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.
Louisville, March 20, 1849.
I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

PATENT MEDICINES.

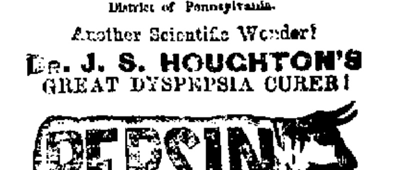
Another Scientific Wonder!
DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!



THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE.

PREPARED from RENNET, or the Fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.
This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.
☞ Half a teaspoonful of Pepsin, infused in water, will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.
Pepsin is the chief element, or Great Digestive Principle, of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.
Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."
Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.
Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."
Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."
Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."
Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."
Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for diseases of the Stomach and deficient secretion of Gastric Juice.
All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.
The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.
Dr. HOUGHTON'S PEPSIN has produced the most marvelous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.
It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.
There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.
Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.
Private Circulars for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.
☞ Observe This!—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.
☞ Sold by all Druggists and Dealers in Medicine.

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.
Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.
We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.
Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $3.25; surpassing any $4 Hat sold in this city.
